GAME PLAY

Players 2+   Ages 8+

CONTENTS:
6 bolo balls, 2 Top Toss Pro towers (46 pieces total), and storage bag

OBJECT:
Try and score more points than your opponent by hanging or wrapping more bolo balls on the towers.

SET-UP:
See opposite side for assembly instructions. After the towers are assembled, place them 25 feet apart (or closer for younger players) on level ground.

PLAY:
Top Toss Pro can be played with either two players or two teams.

If playing with teams:
Each team will decide what color they want to be. Teams will split up and stand at each tower; therefore opponents will be standing together. All the bolo balls will start on one side. The youngest player will start the round. He takes one of his team's bolo balls and throws it towards the opposite tower. (Suggested way to throw bolo: hold one ball in your hand and swing it slowly back and forth underhanded, then release it to create a backward spin.)

Play then alternates between teams. The opponent standing next to the player that just threw, will then throw one of their three bolos. Throwing will alternate between teams until each player throws all three of their bolos. Once all bolos are thrown, they are removed and a new round starts with the remaining players on the opposite side now throwing.

If playing with two players:
Plays the same as with teams, but at the end of a round players switch sides and throw from the opposite tower.

SCORING:
Points are scored when a bolo ball wraps around or hangs from one of the horizontal rungs of the tower. The top blue bar is worth 3 points, the middle orange bar is worth 2 points, the bottom yellow bar is worth 1 point.

WINNER:
The first player or team to reach 21 points at the end of a round wins. If the team or player that throws first reaches 21, the other player or team still has one last throw to try and win.

In the event of a tie at the end of the round, each player or team plays another round and the highest score wins.

ADVANCED GAME PLAY OPTIONS:
- Add one point for every time the bolo ball wraps around the bar. For example, if you wrap it around the top rung two times, you would receive 5 points (3 points for landing it on the top bar and 2 points for wrapping it twice = 5 points). See diagram to right
- Add two points if you bounce the bolo ball off the ground before it wraps around a bar.
- If you knock your own bolo ball off the tower, you lose those points.
- If you knock your opponent's bolo ball off the tower, they lose the points that they received for that throw.
- Add two points if you hang a bolo ball on each rung (top, middle, and bottom) for one round.
